Course No.: ECOGEC-601T

## ( Principles of Microeconomics—II )

7: For a monopolist. MR is .... the price

Full Marks: 70

Pass Marks: 28

( paint to sun Time : 3 hours

The figures in the margin indicate full marks for the questions

#### SECTION—A

and Jagunov Helinami at majo tot

Answer any *twenty* of the following as directed: 1×20=20

- 1. What is the meaning of 'mono' in the word 'monopoly'?
- **2.** Define pure monopoly.
- 3. Is monopolist a price taker?

22J**/173** 

(Turn Over)

13. What is selike to

771/7100-0300000

4.	What is the value of cross elasticity of demand for monopoly product?		· '3£
5.	Why is there a single seller in monopoly market?		1
6.	Under what circumstances it is profitable for a monopoly firm to practice price		
	discrimination?	•	1
7.	For a monopolist, MR is the price.		
	(Fill in the blank)		1
	"If a monopolist practices price discrimination, he does not set MR equal		1
	to MC."  ( Write True or False )		1
			2
9.	Which market structure is most imperfect?		
10.	What is 'imperfect competition' form of market structure?		2:
L1.	Mention the feature of monopolistic competition which is competitive in nature.		22
	ngang ang pagamong kanggalang at sakilan pagya sak		22
l2.	To which market form 'product differentiation' is relevant?		
13.	What is selling cost?		23.
22J/	173 (Continued	)	<b>22</b> J

14	Why is firm's demand curve indeterminate under oligopoly?	
15	. "The demand curve faced by the monopolistic firm is horizontal."	
	( Write True or False )	
16.	What is 'price rigidity' in case of oligopoly market?	
17.	Define market failure.	. 65.
18.	Define externality: 10 notions to see neW	. ĐC
Û.	Give an example of negative externality.  Give an example of production externality.	.08
21.	The social cost of an activity is equal to private cost plus the cost of negative externality.	
	( Write True or False)	
22.	In case of pure public good, consumption does not the good.	* ·
	ro rough of the blank)	.50
23.	State one cause of economic inefficiency.	\$ E

(Turn Over)

22J**/173** 

24.	What is marginal cost pricing?
	Tylogogia mbmir
	What is input market?
26.	Define marginal physical product (MPP).
	Castell de Midd eddW 1
	Demand for inputs is a direct/derived
	demand.
	( Select the correct one )
	Figure 1 and the state of the s
28.	What is meant by quasi-rent?
29.	Write one condition for equilibrium level of employment of input.
	to Vistamente evingent to diqual to eving 10
30.	Mention one factor upon which the supply of
	labour in an economy depends.
	What is differential rent?
	percase cost plan the cost of negotive
32.	The price elasticity of demand for an input is
	generally greater in the run than in the run.
	noisement of description (Fill in the blanks )
	in a contract of the special contract of the contract of
33.	Name the book written by A. C. Pigou on welfare economics.
	3. India one rease of raundruc surficiency.
34.	How Pigou defined economic welfare?

Sautilloamoo allalloagnom

william to we would be to

- 35. What is social marginal benefit?
- 36. Why social welfare cannot be measured objectively?
- 37. "Welfare economics is positive economics."

  ( Write True or False )
- **38.** Who founded 'new welfare economics' free from value judgement and interpersonal comparison of utility?
- 39. What is the Paretian concept of social welfare?

13 The action of microsity is benitties it suisefu

of wellings are ording to Pagogo

**40.** What is Pareto optimality criterion of social welfare?

### SECTION—B

Answer any five of the following questions: 2×5=10

- 41. Write two merits of monopoly.
- **42.** Mention two man-made restrictions on the entry of new firms into monopoly market.
- 43. State two distinctions between monopoly and monopolistic competition.

(Turn Over)

36. Why social welfare cannot be measure

- 44. What is meant by 'group equilibrium' under monopolistic competition?
- **45.** Distinguish between consumption and production externality.
- 46. What does it mean to internalise externalities?
- **47.** Differentiate functional distribution from personal distribution of income.
- **48.** What is economic rent? When does it arise?
- **49.** What are the two conditions for maximization of welfare according to Pigou?

39. Wilst, is the Fareban actions of social

50. Distinguish between private cost and public cost.

#### SECTION—C

Answer any *five* of the following questions:  $8 \times 5 = 40$ 

- **51.** How are price and output under monopoly determined? Illustrate diagrammatically. 8
- **52.** What is price discrimination? When is price discrimination profitable? Explain. 2+6=8
- 53. Explain short-run equilibrium with losses under monopolistic competition.

54.	Define oligopoly with example. Discuss its characteristics. 3+5=8
55.	Write about market failure. State four causes of market failure. Write two effects of market failure.  2+4+2=8
56.	What is the importance of public goods? Write three characteristics of public goods. Why do public goods must be provided by the government?  3+3+2=8
57.	Explain the derivation of the demand curve for a factor of production under the conditions of perfect competition.
58.	With the help of a diagram, show that in the long run, under perfect competition price of the factor is equal to both marginal revenue product and average revenue product.
59.	Explain Pareto criterion of social welfare with the help of Samuelson's utility possibility curve.
60.	(a) What are the important assumptions on which the various marginal conditions for the achievement of Pareto optimum is based?
	(b) Write a note on second-order condition of Pareto optimality.
